Concrete

The great Czech composer Antonín Dvořák (1841–1904) wrote many pieces for the piano, including the famous *Humoresque No. 7 in G-flat Major* [2]. Unfortunately, typical performances of these works today sound nothing like what the composer intended because most modern pianos are configured with a different keyboard layout. Through painstaking historical research, we have reconstructed the original Dvořák piano keyboard layout. We have applied this discovery by transposing the *Humoresque* so that it is playable on a modern piano, enabling the first historically faithful performance of this piece in over a century.

Figure 1: A Dvorak keyboard with the original or “classic” layout [3]. There are several variants of the Dvorak layout, but Dvořák was a classical composer, so this is almost certainly the one he used. Furthermore, this layout has 44 white keys (not counting the spacebar, which is clearly used only for rests). That is exactly half of the number of keys on a piano. Thus we may confidently conclude that the left half of Dvořák’s piano layout was just these 44 keys, while the right half was the same keys again with the Shift key held down.

Figure 2: A modern QWERTY keyboard with the United States layout [4]. This layout has 47 white keys (not counting the spacebar), but obviously three of them are useless: nobody really needs the characters ‘~]}\\ [1]. This leaves 44 keys in the same positions as the keys of the Dvorak keyboard, which can then be mapped to the piano in the same way.

Figure 3: The reconstructed Dvořák keyboard layout. Although it looks strange to modern eyes, this keyboard would have looked familiar to Antonín Dvořák in 1894 and is unquestionably the layout for which he composed the *Humoresques* and his other piano works.

Figure 4: The familiar Qwertý keyboard layout, used by most modern pianos. The mapping from keys of the Dvořák keyboard to those of the Qwertý keyboard is in most cases obvious. The main difficulty lies in the keys $\frac{1}{4}$, ϕ , and $\frac{1}{2}$ on the Dvořák keyboard, which do not appear on the Qwertý keyboard. While a modern Qwertý piano cannot reproduce the note $\frac{1}{4}$ exactly, we can come close by playing 1, /, and 4 simultaneously. Likewise, we can approximate ϕ and $\frac{1}{2}$ with the chords {c, /} and {1, /, 2}, respectively.

Jfmsod;xfd No. 2 in A-flat Harmonic Major $\flat 6 \flat 5$

Antonín Qweřtý

Poco Lento e grazioso.

The first system of the musical score is written for piano in A-flat Harmonic Major (three flats) and 2/4 time. The tempo/mood is 'Poco Lento e grazioso'. The right hand features a melodic line with slurs and a 'leggiero' marking. The left hand provides a harmonic accompaniment with a 'Red.' (Reduction) marking and a 'senza' (senza pedale) instruction. The system concludes with a repeat sign.

The second system continues the piece, starting with a measure marked '3' and a 'p' (piano) dynamic. The right hand has a melodic line with a 'dimin.' (diminuendo) marking. The left hand continues the accompaniment with a 'Red.' marking and a 'senza' instruction. The system ends with a repeat sign.

The third system begins with a measure marked '6' and a 'pp' (pianissimo) dynamic. The right hand features a melodic line with a slur. The left hand continues the accompaniment with a 'Red.' marking and a 'senza' instruction. The system concludes with a repeat sign.

9

Measures 9-11 of a piano piece. The key signature has three flats (B-flat, E-flat, A-flat). Measure 9 features a complex chordal texture in the right hand with a slur and a fermata, and a descending line in the left hand. Measure 10 continues the texture, with a forte (*f*) dynamic marking. Measure 11 shows a diminuendo (*dimin.*) in the right hand. The left hand has a 'Red.' marking under measures 9 and 10.

12

Measures 12-14 of a piano piece. Measure 12 starts with a piano (*p*) dynamic. Measure 13 has a 'Red.' marking. Measure 14 has a 'Red.' marking. The left hand has a 'Red.' marking under measures 13 and 14.

15

Measures 15-17 of a piano piece. Measure 15 has a 'ritard.' marking above it. Measure 16 has a forte (*fz*) dynamic and a diminuendo (*dimin.*) marking. Measure 17 has an *in tempo* marking and a piano (*pp*) dynamic. The left hand has a 'Red.' marking under measure 17.

- [1] Bringhurst, Robert. *The Elements of Typographic Style*, version 3.1. Hartley & Marks, 2005. For example, Bringhurst dismisses the tilde key: “In the eyes of ISO and Unicode, the swung dash found on computer keyboards is an *ascii tilde*—a character . . . meaningless to typographers.” He describes the backslash as “an unsolicited gift of the computer keyboard” with “no accepted function in typography.” And of the pipe character, he writes, “Despite . . . its presence on the standard ASCII keyboard, the pipe has no function in typography. This is another key, and another slot in the font, that begs to be reassigned to something typographically useful.”
